

**Harvester – Claas Lexion 530**  
Sound Effects Library  
(Sound of Essen 001)

21 .wav files + .ods & .pdf file sheet + mic positions + pictures  
96 kHz / 24 bit  
metadata added in Soundly

Thank you for purchasing the Harvester Sound Effects Library. 70% of the income will be forwarded to the charity „Bulldogs for Kidz e.V.“ (<http://bulldogsforkids.de/>) which supports kids in need.

The library was created with the harvester Claas Lexion 530. It was on a field in Germany on a summer day during harvest in the Ruhr Area. For the individual microphones and positions see the „data sheet“ (pdf or ods) and the jpeg „mic positions“.

Some sounds have been recorded in AB stereo. A diy stereo bar was used in app. 60cm distance. Sometimes the file says „**centre mic**“. In the middle of the AB set up a shotgun mic was placed for more mid information. When Mid-Side stereo was used, it was also set up in between the AB mics. **M** is the mid mic and **S** the side mic. **LCR** stands for Left-Centre-Right. „**Bass Mic**“ adds some bass to the foley recordings and was recorded with a different mic. **Loop** means the file is a seamless loop. Files of one take transition into each other. (f.e. „From Above – Harvesting“ transitions into „From Above – Harvesting to Idle“)

If the library is updated, you will be notified and get it free of charge.

In case you have any questions, suggestions etc. don't hesitate to contact me at [nils@itd-music.com](mailto:nils@itd-music.com).
